### Overview

This feature provides the functionality for users to register and log on to the eStore system.

Registration includes an email validation process whereby the system sends the user an email with a link that the user must click in order to activate their account.

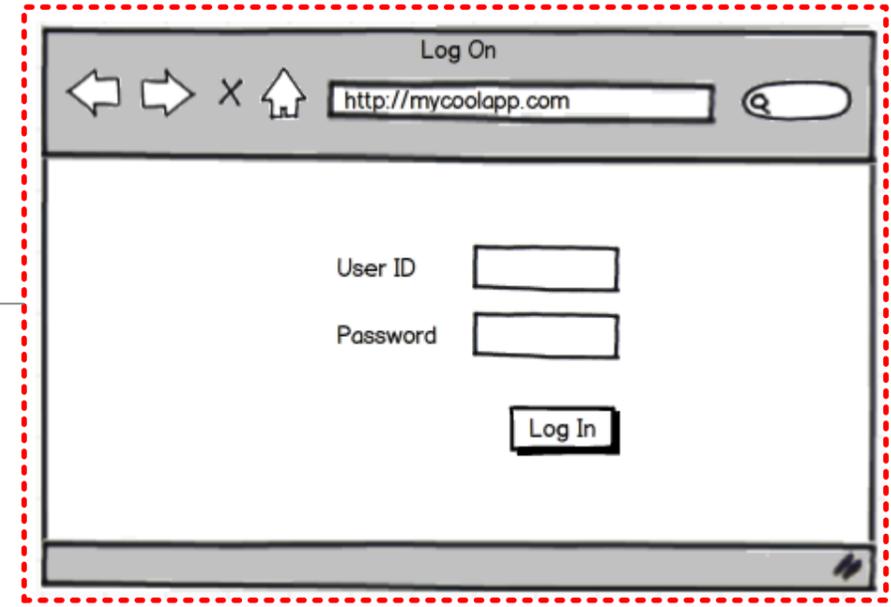

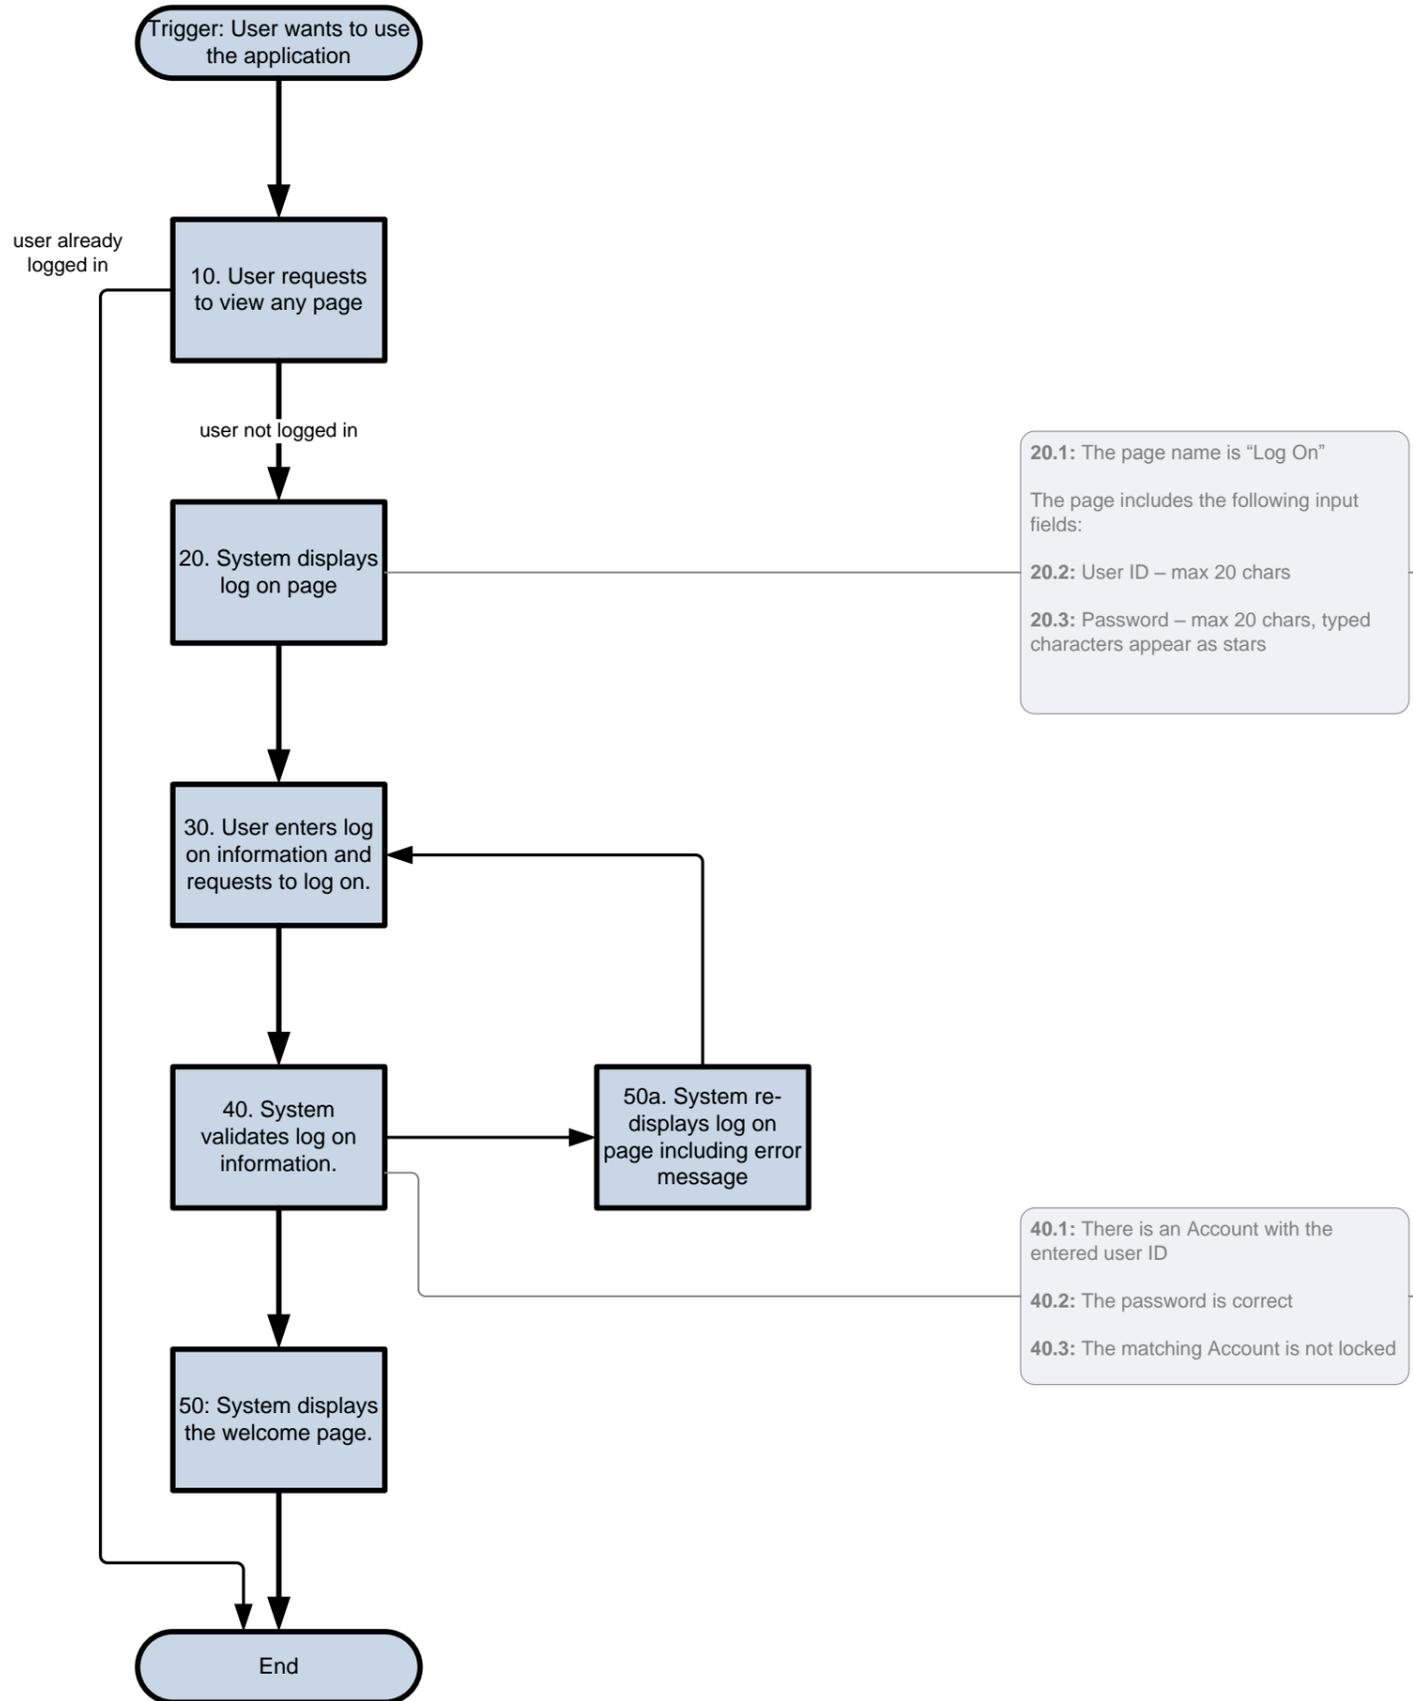

### Context Diagram

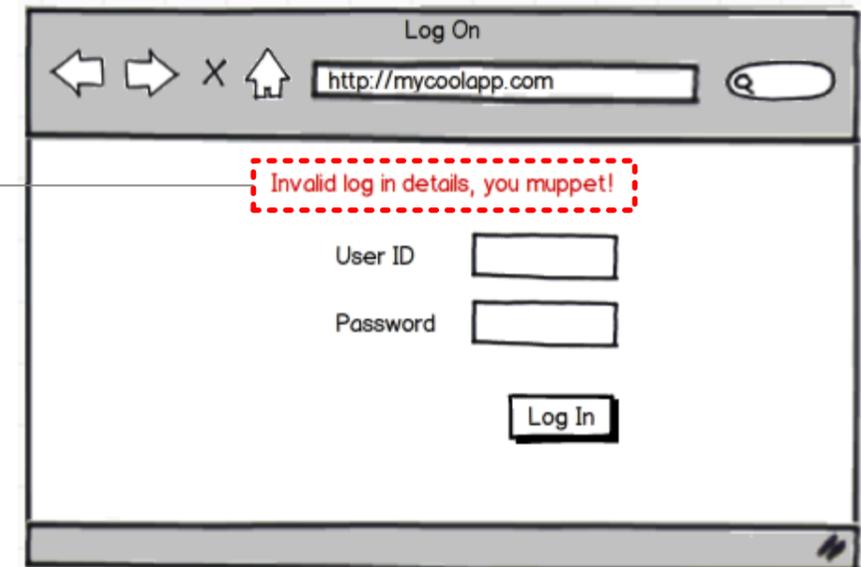

### Use Case Index

Use Case ID	Name	Summary	Actor(s)	System(s)
U001	Log on to system	Customer logs on to the system to gain access to protected areas	Customer	eStore
